

Physical Chemistry: Quantum Chemistry and Molecular Interactions, Books a la Carte Plus MasteringChemistry with eText -- Access Card Package

This edition features the exact same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value for your students—this format costs 35% less than a new textbook. Andrew Cooksy's clear teaching voice helps students connect immediately with the subject matter while defusing some of their initial trepidation about physical chemistry. Through lively narrative and meticulous explanations of mathematical derivations, *Physical Chemistry: Quantum Chemistry and Molecular Interactions* with MasteringChemistry engages students while fostering a sincere appreciation for the interrelationship between the theoretical and mathematical reasoning that underlies the study of physical chemistry. The authors' engaging presentation style and careful explanations make even the most sophisticated concepts and mathematical details clear and comprehensible. MasteringChemistry for Physical Chemistry, a comprehensive online homework and tutorial system, reinforces students' understanding of complex theory, remediates knowledge gaps in math, chemistry, and physics, and builds problem-solving skills throughout the course. Package consists of: Books a la Carte for *Physical Chemistry: Quantum Chemistry and Molecular Interactions*, Access Card Code Card for MasteringChemistry with Pearson eText
