

Politics, Preaching & Philosophy

Bill Peach combines intellect and heart in this wonderful and diverse collection of essays. He draws from his rich Southern upbringing to tell stories of his family, church, and community, and uses them to challenge our thinking on a wide range of religious, social, and philosophical questions. You don't always have to agree with Bill on where he comes out, but you will always be challenged to think through your own feelings and positions on issues that we all face in our daily living and in society today. He poses important dilemmas and contradictions in our current ways of thinking and offers freedom from being caught in the past - offering new and more inclusive ways of understanding others and our increasingly small and richly diverse world. The Rev. Dr. Dan Rosemergy
