

Barack Obama, Prophecy, and the Destruction of the United States

Barack Obama, Prophecy, and the Destruction of the United States explains how, by virtue of his background and policies, Barack Obama is fulfilling, and will continue to help fulfill, various prophecies that will lead to the destruction of the United States. Not intended as an anti-Democratic nor pro-Republican book, Barack Obama, Prophecy, and the Destruction of the United States also tells the truth about Mitt Romney and why his possible election would also lead to destruction. It answers questions such as Is Barack Obama apocalyptic? and Is Barack Obama the Antichrist? Citing Islamic, Kenyan, Catholic, Byzantine, and Bible prophecy, as well as the writings of Nostradamus and others, Barack Obama, Prophecy, and the Destruction of the United States explains from many sources where, why, when, and even some of how, the various aspects of destruction will come. Written by Bob Thiel, Ph.D., one of the worlds preeminent authorities on prophecies for the 21st century, Barack Obama, Prophecy, and the Destruction of the United States explains why certain commonly reported prophetic claims about Barack Obama are false, and yet gives seventeen specific reasons why Barack Obama is apocalyptic. It also lists events that are going to happen that will lead to the destruction of the United States of America, as well as its British-descended allies such as the United Kingdom, Canada, Australia, and New Zealand. Prophecies related to the roles of Europe and China are also analyzed. As an award-winning researcher cited by MSNBC and The Washington Times, Dr. Thiel took his work seriously, traveling to Patmos, Greece (where the Apocalypse was originally written) as well as certain other places he identifies in his book. He and his wife have visited scores of sites of religious and prophetic interest around the world. After years of compiling and analyzing

prophecies and Barack Obama, Dr. Thiel now presents them in a clear, straightforward language, explaining what was prophesied, what has already occurred, and what will happen in the future. How reliable has Dr. Thiel been interpreting predictions mentioned throughout the book? Released in late 2009, dozens of world events have already aligned with Dr. Thiels book 2012 and the Rise of the Secret Sect. And 2012 is not yet over (plus there are many post-2012 predictions in that book that will also come to pass the book clearly states that the world will not end in 2012). World events have specifically also aligned with a dozen predictions related to the Obama Administration that he documented in that 2009 book (and those are also listed in the Appendix of Barack Obama, Prophecy, and the Destruction of the United States). The print edition of the book is 160 pages and all of that content is in this Kindle edition.
