

# Sportfishery Information for Managing Glacier Bay National Park and Preserve: Volume 1: Catch, Harvest, and Effort for the Gustavus and Elfin COve ... 2003 (Technical Report NPS/PWRUW/NRTR-2005-1)

The National Park Service initiated a task agreement in 2002 and 2003 with the University of Washington School of Marine Affairs (UW-SMA) against their cooperative agreement with the Pacific Northwest Cooperative Ecosystem Studies Unit (PNW CESU). The task agreement outlined two distinct projects carried out cooperatively by the UW-SMA, PNW CESU, and GBNPP: 1) develop and conduct a creel survey of the Glacier Bay regions charter and private sportfishery; 2) develop and test a mail and phone survey to collect recreational angler catch information for Glacier Bay proper. This document focuses on the creel survey (Project 1).
