

The Book and The Right

The Pilgrims journeyed toward the New World with a distinct purpose in mind. They left behind a life dissatisfying to them and arrived with a vision of liberty and hope. They held within themselves the seeds of a nation exceptional in all of history. Their convictions paved the way for the colonists, who would eventually give form and substance to a government based on the truth of the ages. A unique nation—a nation under God—would arise and seize the God-given right to live free, offer opportunity and realize prosperity. But contrary to the settlers and founders principles, alien elements have arisen in recent years to challenge the American ideal and threaten the foundation of the republic. Forces foreign to the Constitution are producing radical changes in our cultural and political life, and one nation under God has become one nation under siege. *The Book and The Right* examines those qualities that have made America exceptional, but that are endangered at the present time, and looks in detail at the causes that are putting her at serious risk. It appraises her current direction and stresses the steps she must take to return to the course of her originally chosen destiny.

The Book and The Right addresses a subject long held taboo and goes to the heart of the issue for answers. The author draws on historical, theological, psychological and political data to pursue the truth and call America back to her roots. Maynard Miller holds degrees from Asbury College, Southern Baptist Theological Seminary and the University of Kentucky. He has been a psychotherapist, administrator and college teacher in the mental health/human service field. A frequent speaker and writer, he is a leader in national and international service projects. His previous book is *The Face in the Mirror*.
