

The Trinity Theory: Vol.II Energetic Guide to Earth

The Trinity Theory offers a way of being. It is a spiritual current that demonstrates one way to climb the ladder of divinity. It is comprised of 13 chapters that begin simply, and grow outwards, upwards, and inwards, somehow finding their way back to the beginning again. It weaves a web of perceptions to be enjoyed, a wonderful cave full of gold, jewels, and gems for you to hunt. The Trinity Theory is a system of being based upon the idea that every living thing in the Universe is a spiral. Humans and all the creatures of the Earth are spirals, the official blueprint of nature. Solar systems, cells, your fingertips and your cat are all living, functioning spirals. You know the spiral, you live the spiral, and you are the spiral. Society with its linear systems is not based upon the spiral. In fact, it runs counter to the spiral because it is based upon the lifeless concept of duality. Duality is straight, polarized, and flat. This has created much discomfort and unrest for you because it dictates a lifestyle that is far removed from your natural way of being. The pantheon of love/hate, wrong/right and bad/good have held you under their spell for millennia now. The Trinity Theory is here to banish that illusion and replace it with old-fashioned truth.
