

Russell Grants Astrology Kit

Russell Grant is known to millions for his colourful astrological predictions which are both concise and charismatic. This is his do-it-yourself astrology kit, which is guaranteed to reveal intriguing facets of your character. Included in the kit is everything necessary to construct a basic birth chart: 10 illustrated colour cards containing the interpretations and one quick reference instruction card to illustrate the process of drawing up a chart. An accompanying book contains detailed step-by-step instructions, keys for interpreting the chart and easy-to-use tables of planetary positions to establish the placings of the planets at the time of your birth. Seven blank charts are included to draw up birth charts for family and friends, with an at-a-glance wheel that enables you to calculate your Ascendant (the sign rising on the horizon when you are born and that denotes the outer personality) and the Midheaven (the point in the sky directly overhead when you are born and symbolizes your aspirations).
