

Working with Anthroposophy: The Practice of Thinking

The goal of this study is to cultivate the experience of living, intuitive thinking, such as we experience with every new understanding. As Kuhlewind puts it, this unique contribution to practice of anthroposophy has a twofold purpose: to stimulate working with spiritual science through exercises, and to stimulate independent new formulations of its content on the basis of experience. Working with Anthroposophy will help guide beginning students and inspire longtime students of the path opened up by Rudolf Steiner. As with all of Kuhlewind's works, this book opens new insights with each reading.
