

The Strategy of Managing Innovation and Technology

A comprehensive collection of research illustrating advances in innovation over the past century, this unique anthology equips its readers with the knowledge and tools to construct a model of innovation and effectively implement it in both business and non-business settings. The world continues to change at an accelerating pace. The concepts developed in this vast collection of research represent a large part of the study of innovation and technological progress for the past century. An excellent resource for students and practitioners, it offers readers in-depth insight into many of the areas that influence and are influenced by the innovation process giving them an excellent perspective for conceptualizing the innovation process.
