

STUTTERING & ANXIETY SELF-CURES: BECOME THE BOSS OF YOUR MIND

Stuttering & Anxiety Self-Cures(SAC) offers stuttering-self-cures that are very different from conventional stuttering therapy. It sets forth self-cures that have worked for the author, sufficiently to make his stuttering undetectable (and to control the fears that persist to this day). The authors self-cures incorporate established methods into the authors creative methods. The high incidence of stuttering relapses has, understandably, made many stutterers believe that there is no cure for stuttering, period, and that anyone claiming a cure is a despicable liar, to quote a recent reviewer of another book. Mr. Lovett respectfully disagrees; he believes that the average stutterer, if open-minded to the possibility of a cure, can make his/her stuttering undetectable in a year or less. The author, once a 25-year-old trial attorney, married with two kids and broke, couldnt say his own name in court;in a fight for survival, he waged a multi-decade battle with stuttering, trying many old AND NEW approaches, before finally succeeding in masking his stuttering (if not quelling his fears). Mr. Lovett, now long in the tooth, has made stuttering his charity. He has given away many of his books, via Kindle gifts, and he has nothing to sell - no services, therapy, clinics, products,subscriptions, ads, snake oil or other gimmicks, nor does he spam. He simply wants to help other stutterers beat Satan Stuttering, as he has. Hes trying to give back. If you want to read afresh approach to self-curing stuttering, one that absolutely worked andcontinues to work decades later, this is the book for you. You owe it to yourself to try it.
