

Talk French 2 (BBC Talk) (French Edition)

Talk French 2 is a new post-beginners course from BBC Active offering direct progression from the popular Talk French, or any other beginners course in French. Designed along the same clear, straightforward and structured lines as Talk, this course is suitable for any learner who has already studied at a beginner level and wants to take their studies further. Maybe you already have a basic grounding in French, perhaps from school or evening class, but don't want to start again at a beginners level, then this course is perfect for you. You'll find Talk French 2 easy to access and simple to follow. The course features fifteen structured units and extended grammar sections. Additional consolidation units will help you to recap and reinforce what you've learned and the two-way glossary will help with explanations of key terms. Talk French 2 will provide you with an improved understanding of French, beyond the usual simple holiday-type conversation and basic grammar you are likely to have learned at beginners level. By the end of the course you should find yourself in a position to take part in simple yet increasingly mature conversations, understand longer and more complex passages of both spoken and written French and also be able to express opinions, making reference to past, present and future events. With your confidence growing as you progress, you'll finish the course motivated and keen to demonstrate your new found linguistic abilities.
