

The Abbey Papers

For a period of ninety days in 1993, Gareth Knight received a sequence of communications which seemed to come from three inner plane communicators who had worked regularly with Dion Fortune for much of her life. Forming a series of teachings and practical meditations which later became important knowledge papers issued to the Gareth Knight Group, the scripts construct an elaborate and multi-faceted magical image of an Inner Abbey which serves as a focal point for a wide variety of magical purposes and the evolution of consciousness. As well as providing vivid magical forms and pathworkings within the structure of the abbey, the papers discuss at length the development and use of such magical images and how to establish the magical vortex which empowers them. Three years later, while working with the Inner Abbey papers, Knights daughter Rebecca received a further series of communications which augment the original material and add a practical example of its use, culminating in the Chapel of Remembrance ritual, a magical vortex focused on spiritual resolution for war victims. Now published together for the first time, the scripts provide a tried and trusted construct for personal magical work along with a fair amount of practical advice on occult and mystical techniques. It is open to the reader to follow up on this to find their own way into the Inner Abbey and come to a personal judgement of its experiential validity.
