

The Book of Baphomet

You hold in your hands the material result of many years hard craft. This Book contains some of the secrets of Life itself; or rather, the occult deity of Life on Earth, Baphomet. Horned, vital, beautiful, awe full, our aeons old Chaos Magick idol finds a name from the Knights Templar, then goes incognito through the Enlightenment (when flourished those great natural philosophers beloved of science historians), before emerging via devil worship and witchcraft into this era of Deep Ecology. Darwin could have used a picture of Baphomet as his frontispiece, to demonstrate the one flesh from which all species originate. Contacting this Great Spirit, the anima mundi, allows access to a new way of ordering the world, with fresh visions of how and why we could Live. Here the authors weave strands from their lives into a rich tapestry of images, which might give you a pointer or two towards your own self-realisation, whilst amusing, entertaining, and instructing along the way.

Revolution, evolution, leap beyond the apocalypse to the Now!
