

The Complete Works of Kalidasa, Vol. 2: Plays

Kalidasas status as the major poet and dramatist in classical Sanskrit literature is unquestioned. Possibly the first translation into English in its entirety, Chandra Rajan fulfills a long-felt need and makes these classics accessible to a much wider audience. Her introduction serves to place the text in their context and suggests ways of looking at them singly and as part of the oeuvre. The first volume is devoted to the poems, while the second contains the plays.
