

Angels Simplified

Marilyn Poscic was guided by the Angels, she lovingly calls The Guys, to write a book about Angels that is very simple and easy to understand. She will teach you skills to use in everyday life. With 20 years of research she shares her knowledge and wants you to read this book before you sit down with your child and read the children's book she has also created. People are becoming more and more aware and wanting to learn more about a world they cannot see, touch, hear or feel like we do in our everyday human world. This book will answer so many questions and bring you more love, happiness, peace and closure.
