

## The Engineer, The Writer and Cosmic Beings

This extraordinary experience Beatrice was privileged to be part of has helped her understand that we are not alone, never have been and never will be. And until we become consciously aware human beings of the glory around us, kind to each other and willing to change, we will find we are in the same old-same old patterns of behaviour. We need to listen to our hearts, our bodies and our intuition. This intuition is the first thought that comes instantly into our mind when we think of some person or thing, and which must be acted on straight away without re-thinking it. We are living in one of the greatest periods of human existence; lets make the most of it.
