

The Fiery Furnace of Cancer: A Survival Guide for Families Coping with Cancer

When cancer rears its ugly head, the worst outcome is often imagined and a sense of hopelessness tries to press in. That was Judith Bowmans experience when she and her husband learned their seven-year-old daughter, Sarah, had a malignant muscle tumor. In *The Fiery Furnace of Cancer*, Judith shares her hands-on experience in successfully dealing with oncologists, hospitals, child protective services and the many aspects of standard cancer treatment.
