

The Herbalists Bible: John Parkinsons Lost Classic Rediscovered

A lost classic of Western herbalism rediscovered and restored with 200 full-color images. Herbalist to King Charles I, John Parkinson (1567-1650) was a master apothecary, herbalist, and gardener. Famous in his own lifetime for his influential books, his magnum opus, the *Theatrum Botanicum*, was published in 1640 and ran to 1,766 large pages. The sheer scope and size was perhaps to prove the books downfall, because while it was much revered and plagiarized it was never reprinted and, centuries later, has attained the status of an extremely rare and valuable book. Parkinson was writing at a time when Western herbalism was at its zenith, and his skills as a gardener (from his grounds in Covent Garden) combined perfectly with his passion for science, observation, and historical scholarship. In the *The Herbalists Bible*, Julie Bruton-Seal and Matthew Seal have beautifully combined selections from Parkinsons book with their own modern commentary on how each plant is used today to create a truly one-of-a-kind, comprehensive collection of herbal information old and new. Parkinsons clear and lively description of a chosen plants virtues or healing properties side-by-side with the editors notes including copious herbal recipes make this the perfect book for students and practitioners of herbalism, historians, and gardeners, all of whom will welcome this restoration of Parkinsons lost classic.
