

The Hurt Index

The Hurt Index is a compilation of over 14,000 names of individuals possessing the surname of Hurt who lived in the United States between 1790 and 1930. It is a work based on information derived from the fifteen Federal Census Reports and augmented by data from numerous other sources. The format of the book provides the Hurt researcher with a simple and concise source of information that can be used as basic reference for further research.
