

## The Little German Notebook: A Breakthrough in Early Speaking

This full-color, coffee-table quality book introduces an entirely new way to learn foreign languages -- in 12 weeks -- simply and easily -- without memorization or a dictionary! The unique, self-learning technique is the result of two phenomenal linguistic discoveries and a patent-pending invention. Within one week, a novice can mentally transform 3,000 English words into correct German, Spanish, French, Italian, Latin, Portuguese, or Swedish words, without having seen or heard the words before. Complex German grammar has been drastically reduced to enable speaking practice in four weeks and full-sentence speaking in twelve. This is the first of a planned series of Little (foreign language) Notebooks.
