

The Mancharians Newest Civilization

Book Description The Mancharians Newest Civilization is unique in the sense that it has no author from this earthen dimension. The director Mr. Reni Sentana-Ries formulated questions pertaining to all aspects of life, however the answers to these roughly 150 questions came unfiltered and verbatim from the One source of all intelligence: our evolved ancestors of the past and of the future. When in 1995 the questions were formulated, they were drafted up in such a manner as to aim for authentic answers to widely held religious and philosophical beliefs, some of which are being viewed and accepted as hard core facts of life, yet lack the foundation of universal reality. This volume is meant to once and forever dispel the myths of mans belief systems inasmuch as they stand in isolation from all that is reality and truth in its purest known-to-man format. As ever, the purpose for presenting truth in purity is to liberate the human spirit from long-held misconceptions, and we know that for a conscientious seeker of universe-reality this volume will set his or her spirit free, and pave the way for true enlightenment. We therefore make no apology for knocking at the foundation of error irrespective of the extent to which its lies have permeated the human psyche. - The Editor
