

Night of the White Stag

It is the winter after the kings war, and Finders father has never returned. On his way to the kings castle to seek food for his starving family, the boy enters a snow covered forest. He loses his way and becomes frightened even more so when he meets an old man who is madly hunting for a great white stag. The man is blind, haunted by the memories of war. Though Finder doubts that the white stag exists, he guides the hunter in his search. When they finally come upon the wonderous creature, Finders awe and his trust in all that is good and pure heal the tormented hunter. Yvonne Gilberts lyrical illustrations beautifully complement M.C. Helldorfers magical tale of loss and the redemptive power of faith and love.
