

My First Smartbook (Bilingual English-French)

Meet Antonia, your children's new best interactive friend! After reading My First Smartbook, your children won't read a book the same way again. This is the first interactive book designed for children. The first book that responds to touch, speech and moves. Children will love sharing that book with their friends and reading it together. The book has been designed to be both a fun activity book and a great bedtime storybook! Finally, let's not forget that this is a bilingual book. Another great way for bilingual children to have fun and learn at the same time. (The book is part of J.N. Paquet's Fun-Learning Programme: <http://www.FunLearningProgramme.com>) Created by the author of the popular The Book of The Animals series. For more information and other language versions of the book, visit <http://www.MyFirstSmartbook.com> ###
