

# The Ultimate Numerology Guide To 2014: Maximise and succeed in 2014

Will I or Wont I Live My Dreams How bad do you want change and what are you willing to do to get it? So, often we tell ourselves that change can wait. Maybe we say were waiting for a sign. Status quo in love, life, work and relationships is NOT growth. And desire is meant to be dynamic, to propel you towards growth, change, and expansion! You have to act! Dont wait for a sign; give the universe the sign, so they can give you what you NEED and DESIRE! Now let your desire be your sign. Give yourself permission to feel the full yearning of the BIG life you seek... and let that desire guide you. You would not have those dreams if they werent possible. I think if you take a step towards them, you just might surprise yourself with what shows up to meet you. Your dreams are important. Your desires are essential. Stop living your life like they dont matter and you cant get them. Think outside the box and look for doorways and possibilities. It is not that you should do it! It is that you must do it So, what MUST your next step be? I have worked intuitively with clients for more than 20 years and I have seen how people disempower and fight themselves by going against the natural rhythm and energy alignment. This increases negative clutter and stress and has strong effects on many areas, but the most prominent one is how it increases self-doubt and lowers confidence. This resource will show you how to understand the numerology aspect for the year of 2014 from an emotional perspective. It will also show you how to communicate well and expose any setbacks you might have with regards to enjoying success in your love relationships. I make suggestions on how to avoid obstacles that will naturally come up. With the right intent and mindset you can avoid creating blocks and enjoy the year so much more, so you can work on your true potential. However, if these obstacles are unavoidable, I will teach you how to work

spiritually through them by supporting yourself more. I give a detailed explanation of the 2014-year and what this emotionally means to you. With each number and vibration, there are doorways of energy, allowing you to align and access more energy to help you succeed. These portals or doorways bring opportunities that you can embrace. If you do embrace these opportunities then you can maximize your connections with friends, family, work colleagues, love relationships and most importantly, your instincts. Understanding, feeling and knowing the essence of these vibrations heightens awareness. When you choose or know how to align and you do not to fight the energy, this will increase your attraction and success. When you fight or work in opposition to them, the clutter and chaos increases, causing blocks and limitations.
