

# Conversations with a Light Being: A Guide to Being Peaceful on a Confused Planet

Excerpt: Red and Krill are light beings from the 15th dimension. Red is our main contact. He is the light being that we speak to the most. We had been speaking to Red for about a year before writing this book. We met and befriended an older lady who wants to remain anonymous who we will call Betty at a meditation group we frequented. After finding out that we wrote books and that we were very open minded to spiritual experiences Betty told us about her friend Red. Red is an actual being from another planet. He comes to our planet through a portal. We did not know what to think at first but Betty won us over when several predictions both personal and global that Red spoke of came true. After the predictions came true we began to meet with Betty and Red and we would have conversations. Betty could actually see and communicate with Red and she would be his go between and converse back and forth between us and Red. It is an odd experience to be in his presence. Many times we would feel very spacey and expanded and time would fly by. Many times we would not know what was talked about until we listened back to our recordings. Sometimes we would even have physical symptoms from our encounters with Red such as slight headaches and disorientation. We would often need to eat or sleep after the encounter. Betty can see and speak to other beings that come through the portal however Red is the main being she communicates with. An interesting thing about Red is he seems to be an average guy from another planet. He does not come off as a savior or someone who knows it all. In fact, since we have been speaking to him he has told us many times he does not know the answers to some of the questions we have asked him. He did not even know the meaning of some of our words. Red has a sense of humor which makes him likable. He has the feel of a friend. Once

we asked him if the Ra group is a real extraterrestrial group. He did hear of Ra and he said yes they were. We asked him about other extraterrestrials that we had heard about that he did not know of and he joked and said to us that is like me asking you if you knew who Bob from America is.

Red usually speaks very fast and sometimes speaks in a strange way. He says a lot of run on sentences, yet there is a funky poetic quality to the way he comes across. When we transcribe Red's words from our recordings, we try to keep it true to the way he speaks and as authentic as possible. So please allow some openness for his unique way of speaking our language. We asked Red many of our own questions and questions from other people and he always gave good advice. After doing this for a while we decided to ask him what information he would like to tell humanity. This book is Red's answer and his message to humanity. Topics covered: Background Story, Red's Introduction, Cellular Memory Attachment, Judgment, Emotions as Energy, Stillness and Letting Go, Ascension, Oneness, Orbs, Soul Mates & Family Units, Religion and Materialism, Enjoying the Now, Helping Others and Being a Role Model, Importance of Trees, Dark Night of the Soul, How to Meet Light Beings and Astral Projection, The Sun: Our Nutritional Source, The Elements, Meditation, Past Life Injuries, Letting Go of Tools, The Energy of Domination and War, Self Empowerment and the Meaning of Things
