

Theory Of Everything With New Discoveries!!

This book authoritatively authenticates the scientific accuracy of the Bible with new discoveries. The new scientific discoveries in this book include how the universal gravitation in all forms of matter is due to the residual effect of the strong force beyond sub-nuclear range. This book also reveals how the four fundamental forces of nature are unified in the strong force of the gamma ray with new scientific discoveries on the structure of matter, which simplify the complications of the theory known as quantum chromo dynamics.
