Theory and Practice of Leadership is an all encompassing, global review of examples and case studies that is both comprehensive and easily adaptable to almost any situation one would encounter in leading people.- Richard J. Conwell, Nova Southeastern University, Journal of Applied Management and Entrepreneurship

New to this edition: Refined to capture and delineate the essential theories more clearly, with broader coverage taking in the latest developments in areas such as change, politics, assessment and development of leadership, and multiple intelligences.

Further development of a new integrative model of core leadership themes and practices. Abundant examples and illustrations, together with detailed explanations of how they apply in practice.
