

## This is How I Find Her

Sophie has always lived her life in the shadow of her mother's bipolar disorder: monitoring medication, making sure the rent is paid, rushing home after school instead of spending time with friends, and keeping secrets from everyone. But when a suicide attempt lands Sophie's mother in the hospital, Sophie no longer has to watch over her. She moves in with her aunt, uncle, and cousin--a family she's been estranged from for the past five years. Rolling her suitcase across town to her family's house is easy. What's harder is figuring out how to rebuild her life. And as her mother's release approaches and the old obligations loom, Sophie finds herself torn between her responsibilities toward her mother and her desire to live her own life, Sophie must decide what to do next.
