

## The Time Out Room

Maggie's big mouth and bad attitude had gotten her kicked out of six schools by the time she was fourteen years old. She always felt a little out of place in her schools, but she had never felt worried until she walked through the hallways of The School, passing by delinquent, practically-criminal classmates and armored guards. At The School, stories of punishments for rule-breaking that were handed out by the teachers and the principal were traded and compared as a way to prove who was the toughest student. But no one yet was tough enough to get out of The Time Out Room.
