

Trumpism: A Religion for Sheeple

Like millions of Americans I've been following the 2016 Presidential election with awe and befuddlement. The selection of Donald Trump as the Republican candidate has surprised virtually everyone except perhaps Donald Trump. While it appears that Trump has rewritten the laws of politics one only has to look to the oldest of institutions, religion, to appreciate how he operates and what he has accomplished. Trumpism is not a political movement like socialism or communism. It's a religion and its followers are sheeple. Donald Trump's rise to power goes beyond just a political movement; it has numerous features of a religion. Catholicism, Mormonism, Islam, and even Scientology have nothing on Trumpism. It includes:

1. A figurehead, prophet, or deity (Trump) [take your pick]
2. An easily-offended, thin-skinned, and neurotic deity
3. Commandments
4. Motivation by fear
5. Creating an Us versus Them mentality (slay all non-believers)
6. Sell to fantasies and wishful thinking (a wall, anyone?)
7. Simple language and parables (repeat it until you believe it)
8. Demands loyalty
9. Faith-based (facts and reason not necessary)
10. Women are second-class citizens
11. Numerous contradictions
12. Persuade the uneducated, and disenfranchised and gullible.
