

TrumpNation: The Art of Being The Donald

Whatever anyone thinks of Donald Trump, the truth is far more complex--and fascinating. Instead of society nightlife, most evenings hes at home watching TV and munching Oreos. He has a line of clothing and bottled water emblazoned with his image, yet he needed a loan from his siblings to stay afloat. His name is featured on some of the worlds most magnificent buildings and casinos, while a \$1.8 billion debt hangs over his company. Hell use a friends cell phone to save money on a call. Hell call a journalist a total whack job on television, then turn around and invite him to fly down to Palm Beach on his private jet. These are the contradictions of Trumps world, and beneath the public fa?ade, theres a man few people ever see. Now, New York Times business reporter Timothy L. OBrien pulls back the velvet curtain surrounding The Donald--with access rarely granted to a reporter before--and takes the polish off the image of Americas so called most popular billionaire.
