

Twentieth-Century Poetic Translation: Literary Cultures in Italian and English (Continuum Literary Studies)

Twentieth Century Poetic Translation analyses translations of Italian and English poetry and their roles in shaping national identities by merging historical, cultural and theoretical perspectives. Focusing on specific case studies within the Italian, English and North American literary communities, spanning from authoritative translations of poets by poets to the role of dialect poetry and anthologies of poetry, the book looks at the role of translation in the development of poetic languages and in the construction of poetic canons. It brings together leading scholars in the history of the Italian language, literary historians and translators, specialists in theory of translation and history of publishing to explore the cultural dynamics between poetic traditions in Italian and English in the twentieth century.
