

# The Theory of General Relativity and Gravitations: Based on a Course of Lectures Delivered at the Conference on Recent Advances in Physics Held at the University of Toronto, in January, 1921 [ 1922 ]

Originally published in 1922. This volume from the Cornell University Library's print collections was scanned on an APT BookScan and converted to JPG 2000 format by Kirtas Technologies. All titles scanned cover to cover and pages may include marks, notations, and other marginalia present in the original volume.
