

## Upcoming Changes: Prophecy & Pragmatism for the Late Nineties (Michael Book Series)

This provocative volume channeled by Joya Pope is concrete, detailed yet goes deep and wide in its examination of the dynamics changing and shaking late 20th century life. Predictions, patterns to watch for, religion, soul growth, Gaia, weather change, world politics, Neanderthal ecological practices and consequences ... its all there. Michaels view of the future springs understandably from history as we know it rather than leap-frogging across dimensions. Useful for grasping the macro-picture and for staying positive.
