

USMC Convoy Operations

Marine Corps Reference Publication (MCRP) 4-11.3F, Convoy Operations Handbook, addresses the fundamental principles required for the planning and execution of Marine air-ground task force (MAGTF) convoy operations. This manual provides an overview for convoy planning, organizations, and movement fundamentals, procedures, and techniques. MCRP 4-11.3F provides a source of reference for commanders and their staffs on convoy operations and functions in support of the MAGTF. Specifically, it gives general planning requirements, support requirements and considerations, and procedures. MCRP 4-11.3F consolidates and expands existing convoy operations doctrine and supersedes portions of Fleet Marine Force Manual (FMFM) 4-9, Motor Transport, (1992); FMFM 9-1, Marine Corps Tank Employment (1982); and FMFM 6-9, Marine Artillery Support (1993).
