

The Son of the Crisis

Marco Stefanini embodies the human spirit of determination, the capacity that allows us to learn from every challenge, grow through adversity, and prosper in the midst of crisis. With that determination, he gained knowledge, built a business, and rode the winds of change to success. The Son of the Crisis follows Stefanini from 1984, when the young geology student stepped into a business world of uncertainty and chaos, through many crises to 2012, when his IT company estimated revenues at US\$1 billion and spanned 30 countries. In every obstacle, Stefanini saw opportunity and seized it. Every impediment became a chance for improvement. Stefanini's triumph and the triumph of the human spirit will inspire you. Like Stefanini, combining determination with knowledge, you will grasp for yourself the possibilities afforded by every problem. Stefanini's story will give you a glimpse of the potential found in every human being. After all, we are all children of the crisis.
