

Vivian Versus America

For Vivian Apple, the end of the world was just the beginning. Seventeen-year-old Vivian Apple has just travelled across the country, fended off roving bands of indoctrinated teenagers, re-evaluated everything she ever thought was true, and uncovered the dark secrets about the recent so-called Rapture and the Church of America. And now, she must rescue her maybe-boyfriend Peter from the Church before the world is (supposedly) due to end, which is in less than three months. It's been a busy apocalypse so far. Stranded in a city on the verge of complete panic, and faced with a society in an ever-increasing state of breakdown, Vivian and her friend Harp don't even know where to begin looking for Peter. But then a tip leads them to Los Angeles, and the somewhat unlikely location of the Chateau Marmont hotel. Vivian must save the day - or she'll lose everything worth living for a second time...
