

Northumbria Walks Pack

Containing a detailed folded map of Northumbria and a step-by-step guidebook to walks, this pack describes 40 walks which are graded according to distance and type of terrain covered, making it easy to assess which routes are suitable for the family, and which are better for the more experienced walker. Most of the walks start from and return to an area suitable for car parking, usually by a circular route, of which the round-trip distance is given. There is information about public transport. Attention is drawn to features and viewpoints along the routes, and advice on country walking is given. The folded map of Northumberland and Durham including Tyneside, which can be bought separately, covers the entire area at a scale of 1.6 miles:1 inch. It features footpaths, bridleways, tracks, minor roads, railways, dual carriageways, golf courses, forest parks, National Trust areas, landmarks and youth hostels.
