

## The Time We All Went Marching

Seduced by Slims stories of the privations of a cross-country trek that ended in the violence of an historic riot and tales of Depression-era work camps, Edie MacDonald has followed him from mine to mine, where he finds work and she cares for their son, Belly, in the thin shelter of canvas tents. Until now. Edie has left Slim behind, passed out in an unheated apartment on the coldest day of the year. Boarding a train with Belly, she travels westward. When the train struggles through a snowstorm and possible calamity, the lens shifts between Bellys perspective and Edies. Only then does Edie broach a crucial question. Should she leave Belly with his grandmother and strike off on her own? Or should she return to Slim, despite his boozy wanderings? Vivid and evocative, with rich, convincing characters, *The Time We All Went Marching* is an episodic novel of storytelling, memory, and imagination about a time in history rarely explored in fiction. Arley McNeney inhabits her characters with breathtaking conviction, reaching deep into the vulnerable solitude of individual perception while seamlessly holding her readers' breathless. Mark her.
